

# *The White Buffalo's Gifts of the Great Spirit*

The propensity of writers is that they like to see their work in print, whether blog, poem, feature story, dissertation, or best seller (and everything in-between).

Once the judges saw the collection of material made available from the White Buffalo Native American Poet Laureate, it didn't take much for the spark to be ignited – these works deserved their own voice, their own vehicle to display the very unique and eclectic way a challenge can be met.

What started as a poetry contest, evolved into a literary challenge, and manifested in two volumes – to date – containing the products created in response to the Great Spirit's call, urging Its expression.

The result?
